PAIR each unit with a large triangle and stitch together as diagrammed:

Make 24 units, 4 for each block.

STITCH a background rectangle to the side of each Sunflower petal as diagrammed.

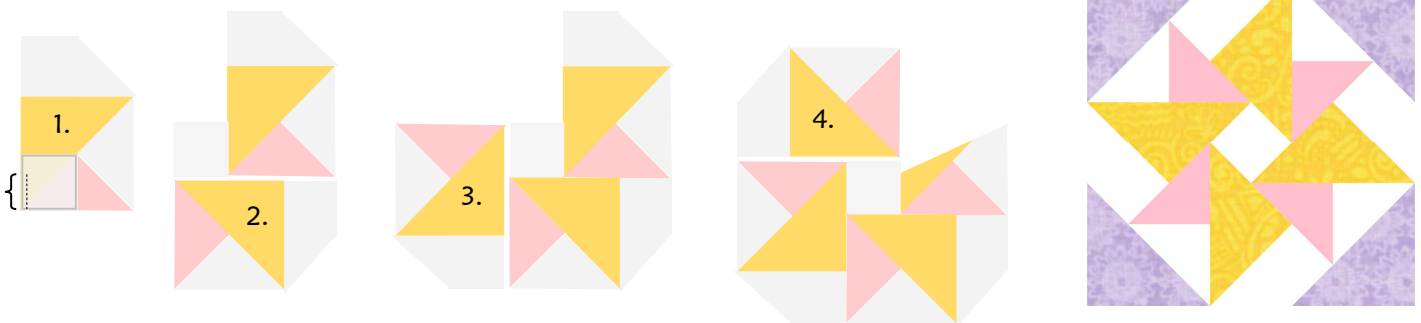

Make 24 units. Now you are ready to assemble the blocks.

LAY a background Flower Center on the corner of a petal unit (1.)

STITCH a partial seam using a 1/4" seam allowance.

The remainder will be stitched in the final seam. PRESS toward petal. Continue adding units around center square as diagrammed, pressing as before. To add the last petal, fold the first petal out of the way, then STITCH and PRESS seam allowance toward petal.

STITCH final seam, overlapping stitches in the flower center to complete the seam. Add large triangles to the top, bottom and sides of the flower block to finish. Make six 9-1/2" (6-1/2") blocks. Stitch together for final row.
